

# JOURNALIST...

Your coverage is essential when risk and disaster strike

Consider the following suggestions for a true, safe, timely work that contributes to the Integral Risk Management

## Before

 Learn about threats, risks, location, coverage, and timeliness

 Include information on prevention, mitigation, and historical impacts

 Plan the contents providing information on each event

 Never publish disturbing unverified data or information

 Check official information sources

## During

Don't be exposed to danger and obey Civil Protection instructions

 Identify information requirements risky areas have

 Before publishing the news, make sure it represents truthful information

 Respect privacy and statements by those affected

 Publish useful information on emergency awareness

 Check with experts on topics required

## After

Communicate the needs affected people have

 Publish official information on the emergency

 Even if the event is over, pay attention to the recovery process

 Help provide information on missing persons and temporary shelters

 Publish the opinion specialists have about rebuilding

 Include suggestions to avoid illness and disease

## Remember that...

- 1 During emergencies, people want information that offers truthfulness
- 2 The timely coverage of an event prevents and mitigates the risk a community is exposed to

- 3 Journalistic work before, during, and after disasters is of utmost importance to keep the community informed
- 4 The media is an ally contributing to improve the disaster risk management process
